

About Us

Meet the LiveMove CycleStreets Team

Marc Schlossberg

Marc Schlossberg is a Professor of City and Regional Planning and a faculty adviser of LiveMove. His teaching and research focuses on redesigning cities so that more people can walk and roll more of the time. He also focuses on finding ways to accelerate the transfer of knowledge into local practice. He's proud of how amazing students are when given permission to 'go for it'. And he quite likes his newish e-bike.

Sierra Rodriguez-Torres

Sierra is originally from Reno, Nevada. She is in her second year at the University of Oregon studying Planning, Public Policy and Management. Sierra is interested in practices and policies that can aid in the development of more active transportation infrastructure. She is currently working with the City of Eugene as a transportation planning intern where she is working with their Move EUG program, Vision Zero Program and EV charging infrastructure grant applications. In her free time you can find Sierra with her family and friends enjoying the bike paths and hiking trails around Eugene.

Mya Ganzer

Mya is a senior at the University of Oregon majoring in PPPM and Environmental Science with minors in Biology and Chinese. She is a lifelong Oregonian and grew up in Portland before moving to Eugene for school. Her future career interests lie in exploring the intersections of natural spaces, transportation, and public health in urban environments. Working on the Neighborhood Greenways project has allowed her to explore and learn more about bicycle transit and infrastructure. In her free time she enjoys biking and swimming in any natural body of water she can find (that's warm enough).

Carrie Bohannon

Carrie grew up in Northern Maryland before attending the University of Oregon. She is currently a freshman studying Planning, Public Policy, and Management. She is interested in learning about transportation and public transit systems in other countries. Overall, Carrie is looking forward to learning more about Oregon during her degree and being able to bike around Eugene soon!

George McNamee

George is an Environmental Studies Major with a PPPM and Music Minor, he grew up in Boston, MA before moving here for college and he has fallen in love with Eugene. George joined LiveMove to make a positive impact on a community that has already given him so much and to learn more about the process of city planning through a sustainable lens.

Finn Haefker

Finn was born and raised in Portland Oregon and is a junior at the University of Oregon, majoring in PPPM and minoring in Architecture. His academic interests include urban design, historic preservation and transportation planning. After graduating, he plans to move to Europe to pursue a masters in urban design. Outside of the classroom, Finn likes to do jiu-jitsu, explore new cities, and work on house restoration projects with his father.

Sam Amick

Sam is a junior studying Planning, Public Policy, and Management. His academic interests are urban design, land-use planning, and transit design. In his free time, he enjoys rock-climbing, running and woodworking.

Ernest Wolf

Ernest is a second-year Planning and Public Policy & Management student born and raised in San Francisco. His academic pursuits include Urban Design, Architecture, and public transportation systems. When he's not hitting the books, Ernest enjoys running, cycling, being outdoors, second-hand clothing, and traveling!
